Meeting 10/19/21 Notes

Team Members Attended:
John Cooke
Zion Emmond
Alex Stiner

Sponsors Attended:
Zac Clifton
Jason Gallavin

Discussed current work on the project and assigned new work listed below.

- Zion is researching Hangfire, a package used to implement recurring jobs and background tasks

    - Starting on the implementation, figuring out how to get it to connect properly and what are the necessary features to implement.

- Zion put in a PR for 503-page-related code as well as for method to check quorum.

- John reviewed the code he had worked on for the user panel module.

- Alex reviewed the code for the System-Message component

    - continued testing

        -issues resolved with API call and rendering to frontend

    - added backend check for end time/end date for system message.

- add a function to frontend to process when user dismisses system message to store.

- Alex is assigned to complete the frontend and continue testing the System Messages (Banner/Alert) component.

    -     Also assigned to work on creating a verification page after clicking the link to verify email address.

- John is assigned to fix issues highlighted by sonarcloud CI, and begin setting up CI/CD pipeline for the frontend and backend

Work Hours Charged:

John: 3.5 hours

Zion: 3.5 hours

Alex: 3.5 hours
